CIRCULAR

Subject: Inclusion of all KPME registered hospitals on CHBMS and setting up ward level committees

Reference: Government Order No. RD 158 TNR 2020 dated 06.04.2021

With reference to the above mentioned subject, BBMP has been allocating beds through Covid Hospital Bed Management System (CHBMS) to all Covid-19 affected patients seeking admissions. CHBMS is a real-time bed availability, blocking and tracking platform for all beds in either Government or private hospitals under the Government quota.

As per the Government Order No. RD 158 TNR 2020 dated 06.04.2021 it is directed to all KPME registered hospitals to allocate 50% beds of their total capacity for management of Covid 19 under government quota.

However, it is come to our notice many KPME registered hospitals still have not shared the mandated 50% quota of beds. All private establishments have already been directed to share the 50% quota of beds failing which strict action under the Disaster Management Act 2005 and Karnataka Private Establishments Act 2020 shall be taken.

Zonal Commissioners in coordination with Joint Commissioners are hereby directed to ensure the same is enforced on the field through ward level teams consisting of ward level nodal officer and assisting officer, who should inspect all the hospitals in the particular ward and report to the Zonal Commissioner about bed sharing, admissions, discharges and deaths on a daily basis.

Annexure 1: List of All KPME Registered Hospitals

Chief Commissioner
