

# Bengaluru Climate Action Cell Fellowship Program

## Call for applications

### About Bengaluru Climate Action Cell: Who We Are

Bengaluru's first ever Climate Action and Resilience Plan (BCAP) was launched on 27 November 2023 under the leadership of Shri DK Shivakumar, Hon'ble Deputy Chief Minister of Karnataka and Shri Tushar Girinath, Chief Commissioner, Bruhat Bengaluru Mahanagara Palike. With the launch of BCAP, Bengaluru became the 3rd city in India to have a global standard climate action plan. The main objectives of BCAP are to mitigate Greenhouse Gas emissions from the city and build adaptation and resilience against climate change hazards in a collaborative manner, leading to inclusive outcomes for Bengaluru's citizens.

To facilitate and spearhead implementation of BCAP as a multi-stakeholder driven collaborative process, a Climate Action Cell (CAC) has been constituted by the Hon'ble Chief Commissioner of BBMP as per the vide order no. CE/PR/216/2023-24 dated on 1/2/2024 ([notification](#)), under the Chairpersonship of the Special Commissioner, Forest, Environment, Climate Change Management wing of BBMP, Smt. Preeti Gehlot, IAS, with participation from all relevant stakeholder departments as representative members of the cell.

### About the Fellowship Program: What we are looking for

The CAC at BBMP is starting a program of 'Fellows of Climate Action Cell' from 2024, aimed towards capacitating the Bengaluru Climate Action Cell to carry out functions related to implementation of BCAP. We are looking for bright-minded young professionals passionate about climate change and civic issues to support the activities of the CAC with new perspectives, skills and innovation in solving real-life problems of Bengaluru.

The Bengaluru Climate Action Cell will engage 8 Fellows for a 12-month tenure to support the work and proceedings of the B-CAC. The 8 Fellows will be allocated different roles and responsibilities to support the various functions of the CAC. All Fellows will report on a day-to-day basis to a Project Coordinator and will work closely with Special Commissioner and Chairperson to submit deliverables aligning with BCAP priorities. All Fellows are expected to collaborate extensively across their cohort to support individual functions, to add value to the work and efforts of CAC, and to be model representatives of the CAC to internal and external stakeholders.

During the tenure, the fellows will get an opportunity to work on real problem-solving and interact with diverse stakeholders across research, academia, citizen groups, NGOs with rich experience and knowledge of working in environmental, climate change and citizen engagement. The fellows will be empowered to actively contribute to research and analysis, and communications on climate risks and vulnerabilities described in the Bengaluru Climate Action Plan. We are specifically looking for candidates with following capabilities:

- Problem-solving mindset
- Multi-disciplinary thinking and approach
- Work in a fast-paced environment
- Ability to work with a peer group and with diverse partners
- Ability to work both on field and in office
- Produce and deliver outputs independently

Remunerations (stipend) of fellows will be within a range of INR 40,000 to INR 60,000 per month based on specific job role.

## Fellows Position Summary

SI no	Name of Position	No of Position	Location	Tenure	Salary/ Stipend (INR/ Month)
1	Junior Fellow- Partner Engagement and Cell Coordination	1	Bengaluru	12 months	40,000
2	Junior Fellow- Communications and Outreach	1	Bengaluru	12 months	40,000
3	Fellow- Data Innovation	1	Bengaluru	12 months	50,000
4	Fellow- Local Climate Action and Civic Engagement	4	Bengaluru	12 months	50,000
5	Senior Fellow: MER, Budgeting & Project Preparation	1	Bengaluru	12 months	60,000

## Selection Process

The selection panel will be headed by Special Commissioner (Forest, Environment and Climate Change). First round of selections will be made based on eligibility criteria mentioned against each position in detailed job descriptions. In the second round, all shortlisted candidates will be required to take a technical and language proficiency test. The final round of selections will be made through a personal interview process.

## Detailed Job Descriptions

### 1. Junior Fellow- Partner Engagement and Cell Coordination

No of positions: 01

#### About your role

You will work to enhance the effectiveness of the Climate Action Cell by providing coordination and administrative support to the Special Commissioner and Chairperson. The ideal candidate will have experience of working in a dynamic environment and will be a detail-oriented and highly organized individual. The position serves as the primary point of contact for internal and external stakeholders on all matters pertaining to the Climate Action Cell, and serves as a liaison to technical experts, advisors, Friends of Climate Action Cell, corporates, civic organizations and citizen groups.

- o Use office software to create drafts and summaries, including meeting pre-briefs and de-briefs
- o Organize and conduct stakeholders' consultations to invite inputs
- o Participate in all external and/or internal meetings and stakeholders' consultations from time to time and provide inputs, as necessary
- o Coordinate and manage interactions with CAC partners, Friends of CAC, any such external partners and create a protocol for seeking and using inputs received
- o Support efforts of Fellows cohort by enabling them with access to internal and external stakeholders and systems
- o Strengthen partnerships with peer organizations, and partners working in aspects related to BCAP
- o Support field work related to implementation of BCAP, localization of climate action and civic engagement
- o Any other tasks pertaining to BCAP and CAC as instructed by the Chairperson, CAC

### Qualifications and Skills we seek

- Post-graduate degree in urban planning/management/ administration or equivalent discipline.
- Experience of working as a personal assistant, special assistant, or executive assistant (or similar role) for one (1) year in govt/ public sector/ social sector preferred.
- Superior skills in organization, negotiation, resolution and attention to details
- Ability to be flexible and can work independently or in a team environment
- Ability to work with and manage large and diverse partners
- Ability to prioritize and solves a range of general problems independently
- Ability to maintain confidentiality
- Professional demeanor and superior people skills
- Excellent computer skills in Microsoft Office (Outlook, Word, Excel, Power Point) and the Internet
- Flexible and able to multi-task; can work within an ambiguous, fast-moving environment
- Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

#### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru.

## 2. Junior Fellow- Communications and Outreach

No of positions: 01

## About your role

As the Communications Fellow, you will support the communications and outreach efforts of the CAC including all IEC (Information-Education-Communication) activities. You will work with the core members of the CAC, various BBMP departments and officials, technical experts and partners to develop and execute high-impact outreach strategies, distil technical research into compelling, actionable message, document and share curated content around CAC works towards increasing climate resilience and adaptation and mitigation measures. You will also respond to any ad hoc and rapid-response communications, coordinate media outreach with BBMPs PR division, draft blogs and editorial content, manage the CACs social media platforms and digital presence, support events and more.

During your tenure you will be empowered to actively contribute to the activities of the Climate Action Cell functions and undertake actions to identify and work towards resolving climate challenges faced by communities in the city of Bengaluru.

The position will report to the Member-Secretary of CAC. The position will coordinate with designated Leads from CAC partner organizations supporting the fellows program on a day-to-day basis. The position will submit completed deliverables to the Chairperson, Climate Action Cell, BBMP.

## Job responsibilities

- o Support the development and execution of the CACs communications strategy, which includes media outreach, social media, email marketing and event coordination.
- o Manage the CACs webpage and social media handles with an emphasis on generating compelling content and assist in monitoring analytics.
- o Write and edit a wide range of internal and external communications materials, including but not limited to blog post, press releases, media advisories, press statements, newsletters, e-blasts, website content, presentations and talking points.
- o Create and maintain an events calendar for the CAC, which captures innovative opportunities to highlight the CACs work.
- o Work with core team at the CAC, Fellows cohort, technical advisors and experts to improve readability of CAC reports and analytical products.
- o Ensure smooth execution of CAC events through planning, logistics, outreach and preparation of background materials
- o Operate communication software in conference rooms, and host multi-party conference and video calls effectively
- o Contribute to presentations and proposals
- o Support field work related to implementation of BCAP, localization of climate action and civic engagement
- o Any other tasks pertaining to BCAP and CAC as instructed by the Chairperson, CAC

## Qualifications and Skills we seek

- o Post-graduate degree in communications, public relations, journalism or a related field required (e.g. development or environmental studies).
- o Minimum of one (1) year professional experience working in communications, linked to sustainable development, environmental governance or broader environmental, climate or civic issues.
- o Proven ability to lead the planning, coordination and execution of communications products, influence strategies and audience targeting.

- o Skilled in communications planning, pitching and placing stories in media outlets or blogs, publications development, marketing, social media and other specialized communications
- o Articulate, versatile and highly skilled writer familiar with and comfortable producing copy quickly within a high-paced, deadline-driven environment; strong oral communications skills required.
- o Demonstrated ability to work effectively in a fast-paced office environment, both independently and as part of a organization team.
- o Excellent inter-personal communication skills, including the ability to encourage collaboration with other departments, technical experts and civic groups.
- o Detail Oriented with demonstrated organizational skills and ability to work in a timely manner.
- o Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- o Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

#### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru.

### 3. Fellow- Data Innovation

No of positions: 01

#### About your role

As the Data Innovation Fellow, you will contribute to development and deployment of datasets and tools for urban and climate analysis, stakeholder engagement and decision support. The candidate will focus on the development and management of tools and methods to make data--such as generated through census surveys, remote sensing, machine learning, citizen science, urban sensors, social media, and the digital economy--relevant to citizens and decisionmakers in Bengaluru.

During your tenure you will be empowered to actively contribute to the activities of the Climate Action Cell functions and undertake actions to identify and work towards resolving climate challenges faced by communities in the city of Bengaluru.

The position will report to the Member-Secretary of CAC. The position will coordinate with designated Leads from CAC partner organizations supporting the fellows program on a day-to-day basis. The position will submit completed deliverables to the Chairperson, Climate Action Cell, BBMP.

#### Job responsibilities

- o Perform data analysis on existing data, and support research and partnership development on alternative sources of urban data
- o Develop use cases, user engagement strategies to guide development of data tools and analyses
- o Develop and implement methods, especially for spatial analysis, that lead to robust and unbiased knowledge products relevant to project and stakeholder needs
- o Research, design, prototype and deploy scalable models based on data mining and statistical modeling to provide insights related to urban development challenges
- o Develop technical notes guidance for documenting data innovation practices to support institutional implementation of approved protocols

- o Guide execution, development, maintenance of multiple data products and tools for urban analysis -- build, test and deploy tools that will be utilized internally or by city staff and other urban stakeholders
- o Contribute to presentations and proposals
- o Support the Fellows recruited for Communications, Project Preparation and MER, Partner Engagement and Local climate action with data insights, data visualizations, infographics, to generate newsletters and other communications and presentation products
- o Support field work related to implementation of BCAP, localization of climate action and civic engagement
- o Any other tasks pertaining to BCAP and CAC as instructed by the Chairperson, CAC

## Qualifications and Skills we seek

- o Post-graduate degree in Computer Science, Statistics, Software Engineering, Data Science, Human-Computer Interaction, geo-analytics, remote-sensing or related field.
- o Minimum of one (1) year work experience in data-driven research and technology implementation projects involving application of geospatial analytics, remote sensing and big data is preferred.
- o Candidates with a bachelor degree and with 3 years full-time practical experience in the mentioned fields will be eligible to apply.
- o Working knowledge of software product development, working with external vendors and leading vendor procurement process.
- o Excellent technical documentation and communication skills, including working knowledge of Confluence, Jira, Asana or similar software ticketing systems and knowledge repositories.
- o Equipped with skills to design and conduct quantitative and qualitative data analysis.
- o High level of comfort using data visualization and storytelling tools and frameworks such as PowerBI, Flourish, Observable, MapLibre, OpenLayers, Leaflet. Familiarity with Python, CARTO, ArcGIS, or GEE.
- o A team player who is comfortable working with Fellowship cohort, government partners, technical partners and experts, and, both with technology teams and with non-technical stakeholders.
- o Substantive knowledge on digital transformation, climate applications, and latest technologies is desirable.
- o Detail Oriented with demonstrated organizational skills and ability to work in a timely manner.
- o Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- o Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru.

## 4. Fellow- Local Climate Action and Civic Engagement

- Skilled in communications planning, pitching and placing stories in media outlets or blogs, publications development, marketing, social media and other specialized communications
- Articulate, versatile and highly skilled writer familiar with and comfortable producing copy quickly within a high-paced, deadline-driven environment; strong oral communications skills required.

- Demonstrated ability to work effectively in a fast-paced office environment, both independently and as part of a organization team.
- Excellent inter-personal communication skills, including the ability to encourage collaboration with other departments, technical experts and civic groups.
- Detail Oriented with demonstrated organizational skills and ability to work in a timely manner.
- Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

#### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru.

### 3. Fellow- Data Innovation

No of positions: 01

#### About your role

As the Data Innovation Fellow, you will contribute to development and deployment of datasets and tools for urban and climate analysis, stakeholder engagement and decision support. The candidate will focus on the development and management of tools and methods to make data--such as generated through census surveys, remote sensing, machine learning, citizen science, urban sensors, social media, and the digital economy--relevant to citizens and decisionmakers in Bengaluru.

During your tenure you will be empowered to actively contribute to the activities of the Climate Action Cell functions and undertake actions to identify and work towards resolving climate challenges faced by communities in the city of Bengaluru.

The position will report to the Member-Secretary of CAC. The position will coordinate with designated Leads from CAC partner organizations supporting the fellows program on a day-to-day basis. The position will submit completed deliverables to the Chairperson, Climate Action Cell, BBMP.

#### Job responsibilities

- Perform data analysis on existing data, and support research and partnership development on alternative sources of urban data
- Develop use cases, user engagement strategies to guide development of data tools and analyses
- Develop and implement methods, especially for spatial analysis, that lead to robust and unbiased knowledge products relevant to project and stakeholder needs
- Research, design, prototype and deploy scalable models based on data mining and statistical modeling to provide insights related to urban development challenges
- Develop technical notes guidance for documenting data innovation practices to support institutional implementation of approved protocols
- Guide execution, development, maintenance of multiple data products and tools for urban analysis -- build, test and deploy tools that will be utilized internally or by city staff and other urban stakeholders
- Contribute to presentations and proposals
- Support the Fellows recruited for Communications, Project Preparation and MER, Partner Engagement and Local climate action with data insights, data visualizations, infographics, to generate newsletters and other communications and presentation products

- Support field work related to implementation of BCAP, localization of climate action and civic engagement
- Any other tasks pertaining to BCAP and CAC as instructed by the Chairperson, CAC

## Qualifications and Skills we seek

- Post-graduate degree in Computer Science, Statistics, Software Engineering, Data Science, Human-Computer Interaction, geo-analytics, remote-sensing or related field.
- Minimum of one (1) year work experience in data-driven research and technology implementation projects involving application of geospatial analytics, remote sensing and big data is preferred.
- Candidates with a bachelor degree and with 3 years full-time practical experience in the mentioned fields will be eligible to apply.
- Working knowledge of software product development, working with external vendors and leading vendor procurement process.
- Excellent technical documentation and communication skills, including working knowledge of Confluence, Jira, Asana or similar software ticketing systems and knowledge repositories.
- Equipped with skills to design and conduct quantitative and qualitative data analysis.
- High level of comfort using data visualization and storytelling tools and frameworks such as PowerBI, Flourish, Observable, MapLibre, OpenLayers, Leaflet. Familiarity with Python, CARTO, ArcGIS, or GEE.
- A team player who is comfortable working with Fellowship cohort, government partners, technical partners and experts, and, both with technology teams and with non-technical stakeholders.
- Substantive knowledge on digital transformation, climate applications, and latest technologies is desirable.
- Detail Oriented with demonstrated organizational skills and ability to work in a timely manner.
- Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru.

## 4. Fellow- Local Climate Action and Civic Engagement

No of positions: 04

### About your role

In your role, you will be the primary point of contact between CAC and zonal and ward officers and other ward level stakeholders. You will be in charge of in day-to-day coordination at Ward and Zonal levels as required for execution of project and initiatives under the BCAP in close consultation with Climate Action Cell, technical partners and other stakeholders in Bengaluru. You will also undertake data collection, stakeholder engagements at the ward and zonal levels as needed to disseminate about the BCAP and its related strategies and priorities to a wider audience.

During your tenure you will be empowered to actively contribute to the activities of the Climate Action Cell functions and undertake actions to identify and work towards resolving climate challenges faced by communities in the city of Bengaluru.

The position will report to the Member-Secretary of CAC. The position will coordinate with designated Leads from CAC partner organizations supporting the fellows program on a day-to-day basis. The position will submit completed deliverables to the Chairperson, Climate Action Cell, BBMP.

### Job responsibilities

- Discover and investigate climate change related civic issues at the ward level. Understand functioning of the official machinery and CSOs operating in the ward, including the Friends of CAC network partners.
- Investigate and offer insights into ward level vulnerabilities and risks posed by climate change.
- Create ward level SOPs for identifying, investigating and prioritizing climate change related civic issues at the ward level.
- Coordinate between the Climate Action Cell and Ward office and Zonal divisions for executing various activities planned under BCAP, and/or aligned to BCAP objectives.
- Lead on-ground engagement of community for investigation and brainstorm solutions. Facilitate co-creation of solutions by different local stakeholders such as citizens, BBMP, CSOs, NGOs and others.
- Undertake and/or supervise on-site activities such as collection and management of primary and secondary data etc. aligned to BCAP objectives.
- Assist in organizing meetings/ consultations with various stakeholders such as relevant departments, technical experts, civil society groups, media etc. at ward level
- Provide technical support to the larger objectives of the Climate Action Cell including assessment, analysis, reporting and presentation of findings to local stakeholders.
- Organizing various events or local forums, workshops, conferences etc. based on project need and relevance at zonal or ward level
- Support Fellows cohort with local data, communications, documentation to enable improved project management, communications products and data management
- Any other tasks pertaining to BCAP and CAC as instructed by the Chairperson, CAC

### Qualifications and Skills we seek

- Post-graduate degree in urban planning/ urban infrastructure/ public policy/environmental engineering/resilient urban design/ social science or a related relevant discipline is desirable.
- Minimum 2 years of experience in planning and conducting action research projects on urban resilience, public health, climate change mitigation and adaptation, nature-based solutions etc.
- Should have experience in coordination, stakeholder relationship management and task management.
- Should have interest to work with the Government/ ministries/ departments and other non-government stakeholders such as local academic/ research institutes, civil society organizations etc.
- Interest to gain working knowledge of public policy, Government procedures and guidelines is preferred.
- Experience primary and secondary data collection.
- Conduct formal and informal trainings and capacity building
- Excellent facilitation, communication, organizational, and interpersonal skills
- Experience working effectively and respectfully in diverse teams and communities around the globe
- Ability to meet deadlines, take initiative and accomplish work with minimal supervision
- Strong critical thinking capabilities with an ability to rapidly assess situational needs, develop problem solving strategies, and implement sustainable solutions
- Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru. Shortlisted candidates will be required to undergo a technical test and language proficiency test.

## 5. Senior Fellow- MER, Budgeting and Project Preparation

No of positions: 01

### About your role

You will work in close coordination with CAC and its stakeholder partner departments in taking stock of actions listed in BCAP agist each sector, follow-up with primary and secondary responsible agencies, identify opportunities and priorities for projectification of BCAP actions, identify gaps in progress of actions and their envisaged outcome, experts and relevant stakeholders, help establish a protocol for regular monitoring, evaluation and reporting of BCAP actions in line with global standards and locally suitable needs. You will work towards developing a climate budget for BBMP in consultation with relevant departments aligned to the goals and actions listed in BCAP.

During your tenure you will be empowered to actively contribute to the activities of the Climate Action Cell functions and undertake actions to identify and work towards resolving climate challenges faced by communities in the city of Bengaluru.

The position will report to the Member-Secretary of CAC. The position will coordinate with designated Leads from CAC partner organizations supporting the Fellows program on a day-to-day basis. The position will submit completed deliverables to the Chairperson, Climate Action Cell, BBMP.

### Job responsibilities

- Co-create with CAC, stakeholder departments and partners a monitoring and evaluation protocol for CAC activities and tracking of quantitative metrics
- Take regular stock of progress of BCAP actions by all stakeholder departments and report the same to the Chairperson of CAC
- Ensure that lessons learned from monitoring and evaluation work inform and strengthen new project design under CAC
- Support the development of projects to enhance their alignment to BCAP
- Report on progress through internal communications, presentations
- Research and analysis of existing climate budget methods (including Mumbai Climate Budget, 2024)
- Apply an approved transparent methodology for preparation of a climate budget in close coordination with CAC, BBMP departments and knowledge partners
- Create and insights presentation on the climate budget findings which can guide departments to prioritize on-going practices or implement emissions reduction, adaptation and resilience measures
- Develop presentation and training packages to disseminate climate budget process and needs to other departments and government stakeholders
- Document climate budget process and template to enable recurring assessment on a regular basis
- Investigate funding prospects for projects related to BCAP actions selected by CAC and key stakeholder departments.
- Contribute to presentations and proposals, work with the fellows cohort as necessary

- Support field work related to implementation of BCAP, localization of climate action and civic engagement
- Any other tasks pertaining to BCAP and CAC as instructed by the Chairperson, CAC

## Qualifications and Skills we seek

- Post-graduate degree in urban planning/ environmental economics/ accounting or a related field.
- Minimum three (3) years of relevant professional experience of working in budgeting, monitoring and evaluation preferably in municipal sector.
- Strong process orientation with sensitivity to quality, timelines, and organizational systems.
- Ability to work independently with minimal supervision, ability to work well in a team and deliver in a fast-paced environment
- Strong computer skills including high level of comfort with Microsoft Office (Excel, Word, PowerPoint, Outlook), web-based communications (Teams, GoToMeeting), with CRM database (esp. Raiser's Edge) and budgeting (Microsoft Cognos) preferred.
- Knowledge of relevant low-carbon policies and climate-resilient development in India
- Knowledge of urban finance and climate finance architecture
- Ability to apply quantitative and qualitative data collection and analysis methodologies
- Detail Oriented with demonstrated organizational skills and ability to work in a timely manner.
- Commitment to Climate Action Cell's and BBMPs mission and values and interest in environmental issues
- Languages: fluency in Kannada and English (reading, writing, speaking) is necessary.

### Duration and Location

The tenure of this work is 12 months. The position is located in Bengaluru.

### Age limit

**Upper age limit not exceeding 35 years as on the last date of online application. Any candidates found indulging in unfair means will be disqualified and shall be liable for legal action against them.**

## Application form (google form to be made available in CAC webpage)

Candidates will be required to complete an online form (hosted on BCAP website) and upload relevant information to be considered for the shortlist for the positions.

### 1) Page 1

- i) About BCAC Fellowship Program (brief)
- ii) Consent requirements
  - (a) You have to reside in Bengaluru for the entire tenure of your Fellowship
  - (b) You will be required to travel within the city
  - (c) Shortlisted candidates will need to undergo technical test/ Kannada proficiency
- iii) Please continue with filling the form if you agree to adhere to the above requirements

## 2) Page 2

- i) Name
- ii) Email
- iii) Date of Birth
- iv) Educational qualifications – keep options (select 1 or more) [PhD/ Masters/ Bachelors/ Diploma]
- v) Field of study – type in box
- vi) Name of institution – Type in box
- vii) Years of professional experience – select number drop down – ranges (0-2/ 3-5/ 6 to 9/ 10 or more)

## 3) Page 3

- i) Select your primary interest area that you would like to work on as part of this Fellowship– drop down with 6 JD titles
- ii) Select a second option that you would be interested to work in – drop down with 6 JD titles
- iii) What is your interest to apply for this position? (200 words limit)
- iv) What are any previous professional or volunteering experiences that you think qualify you for this role? (200 words limit)

## 4) Page 4

- i) Upload your complete resume
- ii) Upload any relevant works, portfolio, examples to help with this evaluation? [ 2mb upload limit]
- iii) Mention any links to works you independently have developed that is relevant for the position (s) you are applying for [Type in box]
- iv) SUBMIT Button

## 5) Page 5

- i) Thank you for your interest to apply to the BCAC Fellowship.
- ii) You will receive a confirmation email when you submit this application.
- iii) Please follow this link [insert button redirect to BCAP page/ engagement options] to view the Climate Action Cell website.
