THANK YOU !

The infographic features a news anchor at a desk with a laptop and a monitor displaying a world map. The text reads: 'COVID VACCINATION Myths Vs Facts'. It highlights a 'MYTH' that media reports suggest an increase in severe AEFI cases leading to patient deaths post-vaccination. It then states a 'FACT' that these reports are based on incomplete information and that 'succumbed' implies causality. A final fact states that any death following vaccination cannot be automatically assumed to be due to vaccination unless investigated by AEFI committees.

COVID VACCINATION
Myths Vs Facts

MYTH

There have been some media reports suggesting an increase in the cases of severe AEFI which have also resulted in 'succumbing of patients' post vaccination

FACT

- These reports are based on incomplete and limited understanding of the matter. It may be noted that the term "succumbed" implies causality
- Any death following vaccination cannot be automatically assumed to be due to vaccination unless investigated by the AEFI Committees and attributed to the Vaccination
